

1. What is ESA's position and please explain the reasoning for coming to that position.

The ESA board resolved on 12 November 2025, to vote in support of the members when using their veto vote. If ESA was required to vote, the vote would be YES, ESA would not be required to vote if the members voted NO to any motion.

2. Why did the SA Branch not consult prior to casting the vote, and how did the branch vote?

ESA determined to support the members wishes as described above.

3. Is the ESA board unanimous in voting for the resolutions being put forward at the EA SGM, if not, what is the split?

This is subject to board confidentiality, the motion passed that is sufficient member information.

4. I am concerned over the future of Showhorse in our state and the lack of events or development provided for our membership.

This question has been forwarded to the ESA Show horse committee. We have asked them to provide you a response in due course.
